Kangaroos in NSW are on the brink of extinction due to the commercial, and other, slaughter, exclusion & cluster fences, native habitat clearing, wanton development, vehicle impact and climate crisis - fires, floods and drought. We have to act now to stop the Government and Kangaroo Industry exterminating our beloved national icon.

10:15am to 11:49am:

The Kangaroo Movie

This ground breaking film, by Mick McIntyre and Kate McIntyre Clere, reveals the truth surrounding Australia's love-hate relationship with its beloved icon. The kangaroo image is proudly used by top companies, sports teams and as tourist souvenirs, yet when they hop across the vast continent some consider them to be pests to be shot and sold for profit. KANGAROO unpacks a national paradigm where the relationship with kangaroos is examined.

Yuin Declaration for Kangaroos

2pm to 3:14pm:

The Kangaroo Movie

Filmmakers Mick McIntyre and Kate McIntyre Clere spent 5 years researching the treatment of kangaroos in Australia. Using investigative techniques such as interviews, citizen footage, and research, *Kangaroo: A Love-Hate Story* shows how the kangaroo meat industry and the Australian government put profits ahead of animal welfare, native species protection and the environment. In addition, farmers who are guided by misinformation and profit take whatever steps they deem necessary to eradicate the species.

YUIN DECLARATION FOR KANGAROOS

Yuin community acknowledged World Kangaroo Day 2021 with a *Kangaroo Declaration* stating that kangaroos shall be recognised and treated as a 'national treasure'. The declaration recognises that the kangaroo has inhabited the Australian continent for over 20million years, living in peace and ecological harmony and this ancient iconic animal therefore claims sovereign rights above and beyond any human claims of dominion over them. The kangaroo continues to be a sacred totem for First Nation people, central to ceremony. The ancient unbroken connection between kangaroos and first nation people is of world heritage value. Australia is one of the few countries that can boast such an ongoing powerful ancestral connection with wildlife and first nation people. Kangaroos need to be protected to roam freely and travel uninterrupted through their ancient songlines.
